SUMMARY:

Romulus and sister vessel Remus were acquired by Livett's in June 2023, adding even more versatility to our diverse fleet. They have previously been deployed as office barges for developments in Canary Wharf and West India Docks since the late 1980s.

The barges are currently set up as open plan offices with space for up to 32 desks per deck. However, their extremely flexible layouts mean they can be reconfigured for a wide range of requirements. This includes living accommodation, social activities, PR events, marine filming unit bases, or being cleared for use as a flat top pontoon. Both Romulus and Remus are available for rent or purchase.
