SUMMARY:

Indigo Lima is a versatile Pioneer Multi III vessel – a craft widely recognised for its high-quality design, endurance, and safety features. Very similar in design and scope to Echo Lima I, Indigo Lima also boasts a drop down front making her ideal for diving and survey work. Other features include a steering console and seat boxes, whilst the 60hp Tohatsu engine allows her to navigate waterways at pace. A dedicated trailer means Indigo Lima is easily road transportable and therefore fit for use wherever she is needed across the UK and Europe. Indigo Lima became part of the Livett's fleet in February 2022 and is suitable for a wide range of marine services on the River Thames and beyond, including river wall and bridge surveys, acting as a platform for filming on water, or safety boat work.
