SUMMARY:

New to Livett's fleet in 2026, Sierra Lima is a high-performance vessel designed for fast, agile and reliable operation on the water. She is ideal for productions requiring a police, military or SBS-style hero boat, including close-up action, pursuit sequences, marine support and wider filming coordination.

Her high-speed performance makes her well suited to dynamic sequences on the River Thames and beyond, while her road transportable design allows deployment across the UK or internationally. She can also marine activities as a safety boat.
